

# Origami Ed Paper Puppet

Cut out the pattern below and follow the instructions on the next page to create your own frill-necked lizard puppet

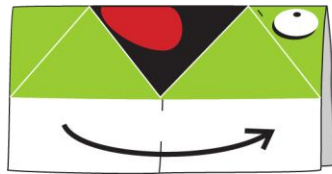

# Origami Ed Paper Puppet

## Step 1

Start with the printed side facing down, then fold in half.

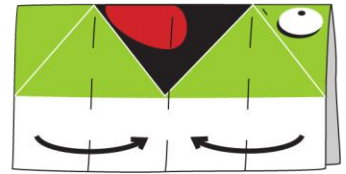

## Step 2

Fold into quarters.

## Step 3

## Step 4

Now unfold the page, so it's like Step 2 again. Then fold the sides into the middle.

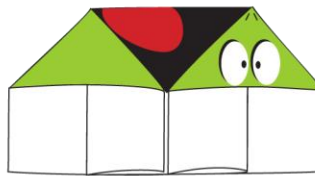

## Step 5

Turn down the top corners.

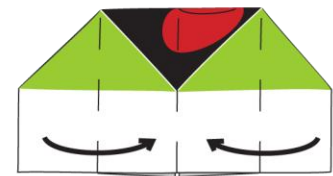

## Step 6

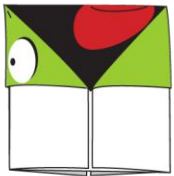

## Step 7

Open the outside flaps.

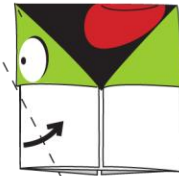

## Step 8

Turn the page OVER and fold the side flaps into the middle.

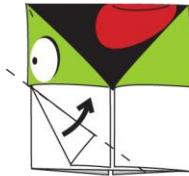

## Step 9

Now it should look like this.

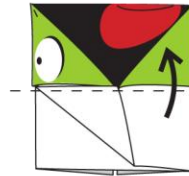

## Step 10

Fold the left corner of the top layer up once.

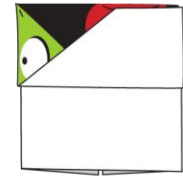

## Step 11

Fold it again.

## Step 12

And once more.

## Step 13

Now it should look like this.

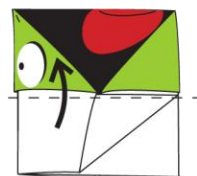

## Step 14

Undo all the folds, and make the same folds on the right hand corner on the same side.

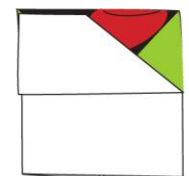

## Step 15

Fold the right corner a second time.

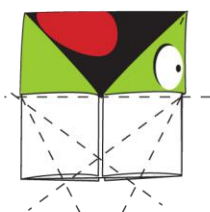

## Step 16

Fold it a third time.

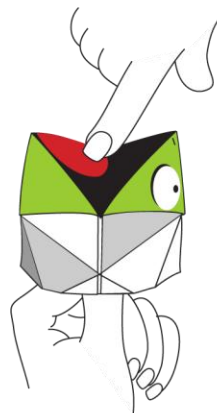

## Step 17

## Step 18

Undo all the folds again, and TURN the page over. Now fold the corners of this side 3 times each like you did the other side.

## Step 19

Now the tricky bit! Put your thumb and finger up inside the neck and open it out while pushing down on the tongue to form the mouth. The folded corners of the paper should curl up to make the frill.
